Hospital Valuation Overview

Hospitals and health systems need to be valued for a variety of purposes including to support affiliations, mergers, or acquisition transactions from both strategic and regulatory perspectives, for financial reporting, or for purposes of a general strategic or regulatory review.

KEY FACTORS THAT INFLUENCE HOSPITAL VALUATIONS

- Size of facility or system
- Age and condition of facility & equipment
- Diversity and sustainability of referral sources
- Local competition and market

- Service mix
- Payer mix
- Commercial contracts
- Control-level of subject interest
